ACKNOWLEDGEMENT

Time demands that I express my gratitude to those who have been a part of my stay in B.B.D.U. It's been great, all these years, but life moves on.. and so do we..

I express my deepest gratitude to my thesis guide AR. URVASHI TIWARI for his valuable passionate guidance, critical discussions, suggestions and continuous support all through my B.I.D thesis.

I express my gratitude to DEAN, AR. MOHIT AGARWAL , Department of Architecture, B.B.D.U., Lucknow, for being there to solve our problems.

I am grateful to thesis coordinators AR. SAURABH SAXENA and AR. ABHINAV KHARE for providing their useful comments at the various stage submissions

My all teachers, your support, encouragement and guidance have given us the strength to embark on this rigorous journey.

My parents, saying thanks is nothing, just accept this as a tribute to what you have made me.

It would not have been possible without my

MY FRIENDS- SHAMBHAVI SHUKLA , SARIKA KHAN , FAIZ MALIK

And also MY SENIOR

Though words hardly express the true emotions, still I would like to thank all my near and dear ones who helped and guided me.

ADEEBA NABI

SYNOPSIS

CORPORATE OFFICE

INTRODUCTION

An office is a space when an organization's employees perform administrative work in order to support and realize object and goals of the organization.

The word "office" may also denote a position within a organization with specific duties attached to it.

The main purpose of office environment is to support its occupants in performing their jobs. Work spaces in an office are typically used for conventional office activities such as reading ,writing, and computer work .

There are many different ways of arranging the space in an office and according to function , and the culture of specific companies can be even more important .

Corporate is a term that pertains to corporations. A corporate office is the main office, also called the headquarters, of a corporation. This office is usually the hub of the company and often serves as the central location where top decisions are made.

HISTORY AND BACKGROUND

The 18th century sees the construction of two of the first dedicated office buildings in Britain.

Image credit: Cary Bass-Deschenes

There is evidence to suggest that the first offices originated in ancient Rome as spaces where official work was conducted and that similar spaces existed in some form throughout the ages. However, it wasn't until the 18th Century that dedicated office buildings began to be created

The first office building was built in 1726 in London and became known as The Old Admiralty Office.

Why Is Corporate Office Important

In most corporate offices, you will likely see:

- Human resources carry out their main tasks
- IT provides information technology support to other offices
- Finance handles the company reporting, payroll, and budgeting
- Legal, contracting staff, and procurement handle such affairs for the company
- Corporate executives maintain their offices such as the CEO
- Audit and compliance staff carry out their day-to-day functions

AIM AND OBJECTIVES

- Adopt best practices of Project and Operations & Maintenance Management leading to System Efficiency, Reliability and Commercial Viability.
- Create a work environment which motivates & enhances Employee Performance, Value Systems and Reward Contribution.
- Develop and train employees towards upgrading their skills at work, enrich work content to make it more substantive and responsive to Company Goals.

SCOPE AND LIMITATION :

- Office management deals with controlling and coordination all office achieve the business goals.
- It organizes the office and its tasks so that the management achieve its objectives efficiently .
- All says that it is a service department for all other sections of the business
- Scope of work definition, revising client's needs and expectations into design criteria helps develop project's result as satisfactory at high quality level for the client :
- Scope of offices or employment means that the employee was acting on behalf of the state in the performance of duties or tasks lawfully assigned by competent authority.
- The full scope of design services:
 - Space planning , design concept development , finishes and materials selection, and furniture, evaluation and specification , electrical, voice/data and audio-visual coordination, reflected ceiling plans and lighting layouts .
 - In corporate offices create interior designs for professional workplace from small office settings to large –scale corporation within high-rise building. They focusing on creating spaces that are efficient , functional , and safe for employee

SITE ANALYSIS

INTRODUCTION

Coworking spaces are essentially shared workspaces. They offer affordable office space for those looking to escape the isolation of a home office or coffee shop. These shared workspaces offer a suite of office-like amenities such as hot-desks, private meeting rooms, kitchens, coffee and more.
